Dear ladies and gentlemen,
dear TACTP,

During our religious education lessons we talked about your projects concerning HIV.

Everyone of us thinks that you do a great job helping people who are suffering, because of the virus. Even the peaceful protests for the availability and the use of AIDS-medications were excellent projects as well. We hope that these kind of medication will be produced furthermore in order to help the people.

There should be more organizations as yours. The people of South Africa are glad about your help now and your help in the future. We hope you will proceed in making projects. It makes us sad to see so many people who are not interested in your work, but nevertheless we hope that a lot of people will support you.

We will do our part by giving information about your organisation and its work on our homepage in the internet. A link will lead visitors right through a lot of information. We think many people will pay attention.

Yours,

Christian Schmitz
Martin Sauerland
Alexander Lambio
Heinz-Jürgen Zens
